

NOVEMBER

Prayer Diary

Storm

MIDDLE EAST

Pray that the extremists on all sides will be tempered by international pressure and the sheer weight of suffering to innocent people. That a long-term resolution can be found that brings stability to the region and nations can coexist without hostility and fear. That new projects will emerge that encourage Israelis and Palestinians to work together.

UKRAINE

Pray for a policy change in Russia brought about by growing discontentment amongst ordinary people and disillusionment with the war. That such a change brings new opportunities for growing peace and understanding in Europe.

NATURAL DISASTERS

Many countries are currently experiencing the impact of natural disasters, which are often sudden and devastating. For more information, and guidance on how to pray, please visit:
