Easter

Family

Many of us have family members that have either never made a commitment or were once involved with church but have turned away for a variety of reasons. Easter presents an opportunity for us to share the truth of the gospel in a way that is appropriate for them to hear.

Pray that this season, God will give us grace, wisdom and opportunity to talk about the Easter story with our families.

Palm Sunday

This is the first of our two, annual community services held at Longwell Green Primary School. We have invited the families of CoffeeTots, Footprints and past members of these groups who are now part of 'The Friends of the Mustard Tree.'

Pray that people think about the event and choose to attend. Pray that they will hear and see something that will stir them and cause them to seek further.

Society

There are many questions being asked about our social situation and the state we find ourselves in, both nationally and globally. People are increasingly aware of the difficulties we face, but struggle to find solutions. The Easter message is one of a new way of living; found in the life-changing actions of Jesus. Pray that we can make this increasingly visible to people in our community so that they have the chance to receive hope.
